## St. Andrew's Church Concert

AN EXCELLENT PROGRAM AND A  
FINANCIAL SUCCESS

The concert and sale of work in Foresters' Hall in aid of St. Andrew's church proved a success from every point of view. Dr. Rose introduced the programme, which, he explained, was a long one and left no room for a chairman's address, yet it proved an exceptionally good one as well as lengthy.

Mr. Rowe, of Strathmore, was admittedly the star of the evening, and his rich baritone voice pleased everyone, if the hearty manner in which he was repeatedly encoered is any indication. His stories and imitations were also exceptionally well rendered and appreciated.

Mr. Fisher was easily the next best entertainer, and his comic songs and local hits were fully up to his usual excellent productions.

The numbers by Rev. Farnham, of Sheppard, and Rev. Castle were also well received.

Mr. Birch received tremendous applause and encores for each of his melodiously comic songs.

The solo by Misses McArthur, Larkin and Pender were also well received, as were the pianoforte duets by Mrs. Castle and Mr. Todd.

The Children's Comb Band received great applause, which were accompanied by songs by Florence Wishart.

Mr. Wastall's songs were also well received and encores.

Following is the program:

Song.....Glee Club  
Selection.....Children's Comb Band  
Song.....Mr. Rowe, of Strathmore  
Pianoforte.....Mrs. Castle and Mr. Todd  
Reading.....Rev. Farnham, Sheppard  
Comic Song.....E. H. Birch  
Violin Solo.....Victor Beaupre  
Song.....Miss Larkin  
Comic Song.....T. P. Fisher  
Selection.....Children's Comb Band  
Solo.....Miss C. McArthur  
Solo.....E. Wastall  
Pianoforte Duet.....Mrs. Castle  
and Mr. Todd  
Comic Recitation.....Mr. Rowe  
Song.....Miss McArthur  
Reading.....Rev. T. Castle  
Comic Song.....T. P. Fisher  
Comic Song.....E. H. Birch  
Song and Recitation.....Mr. Rowe  
Solo.....Miss Pender  
Selection.....Children's Band

After the concert the Women's Auxiliary served light refreshments and held a sale of work, which was concluded by a successful auction sale conducted by Mr. Rowe. Then dancing was indulged in until about 2 a. m.

## Walter McRaye Coming Monday

Walter McRaye and his entertainers are billed to appear in the Foresters' Hall next Monday evening, Nov. 22, and here, in part, is what the Vancouver World has to say of them:

Perhaps the most charming item of the whole program was the dancing of a little brown haired girl, who called herself Miss Lucy Webling, but who is known in private life as Mrs. Walter McRaye. In her own way this young artist is almost as talented as her husband. Last evening she chose as her first number, "May I Have the Pleasure," and in this showed a delighted and appreciative audience the manner in which both the dance and the challenge to the duel were conducted some two hundred years ago. To watch her use her fan was a lesson in itself. Miss Webling is also the owner of a very pleasing little voice. That she can act was shown in the delightful skit which she and Mr. McRaye gave, "After the Ball." Thereupon ensues a most laughable scene, and the audience last night laughed itself tired over the absurdity of it all. Van-

## Father and Daughter Asphyxiated

John Bennett and His Daughter, Lyddie, Overcome By Gas at Their Farm House Northeast of Gleichen.

One of the saddest fatalities that has occurred in this district occurred some time Monday night or Tuesday morning, which resulted in the death of John Bennett and his daughter, Lyddie, who lived on a farm northeast of town.

Otto Kirstein arrived in town about 11 o'clock Tuesday evening with the information for the Mounted Police, who at once left with Coroner Rose for the scene, but upon their return Wednesday morning the police said they did not care to make any statement until after the inquest, which is being held at the time of going to press.

However, it is learned from other sources that Tuesday evening one of the Bennett boys arrived at Kirstein's farm, wearing only socks on his feet, which is a mile and a half from the boy's home, and stated that there was something wrong at his home, and that his father and sister were dead. Mr. Kirstein at once went over to the Bennett house and found Mr. Bennett dead under the table in the dining room and Lyddie dead in her bed and her sister trying to revive her. He found it necessary to move them in order to get about the rooms to investigate, and then went back to his farm and drove to town to report.

It is learned that Mrs. Bennett, who is quite a cripple from rheumatism and has to go about on crutches, found her daughter Lyddie dead near the stove when she got up at 8 o'clock on Tuesday morning and her husband dead underneath the table. Another daughter was quite overcome with the gas, which is believed to have come from the coal briquettes which they burned in the cooking stove. Her three sons were also in a bad condition. She continually tried to arouse the boys during the day, but no sooner got them awake than they fell asleep again. In this state they remained until late that evening when she managed to get the boy up who went over to Mr. Kirstein's.

It is said that Mrs. Bennett also appears to have been affected by the gas, and acted strangely when the police and coroner arrived.

The family arrived here nearly two years ago from England and have shown themselves to be hardworking people. One of the girls has worked as dressmaker for a number of families in town, while another done housework in town, and the unfortunate young girl who died was employed as nurse by one or two local families. The boys have worked hard and one of them, who is deaf and dumb, set type for a time at The Call office.

The Gleichen Second Annual Seed Fair will open in the Foresters' Hall next Saturday, Nov. 20th, when a big contest is expected for the liberal list of prizes. Every farmer should compete.

couver audiences will want to see a great deal more of Miss Webling. To Miss Eileen Maguire fell the most enthusiastic reception of the evening, for there are few artists more popular in Vancouver. Perhaps her best numbers, however, were "Sometimes," which she gave later on as an encore, and a delightful Irish song all about an Irish peasant girl called Mary. In her last song, "Maureen," Miss Maguire delighted the audience by appearing in Irish costume, and later on danced an Irish jig in a manner that left no doubt at all as to the land she was born in. The clever sketches and recitations given by Mr. Walter McRaye added greatly to the enjoyment of the evening.

### ANOTHER OLD-TIMER GONE

N. R. Dextrase, of Rosebud, has just received the sad intelligence of the death of his uncle, F. X. Paquette, which occurred at Ste. Brigide, Quebec, on November 3rd, at the ripe old age of 76 years. Deceased was ranching for 14 years on Rosebud Creek, and left here last June on account of ill health to visit his old home, after an absence of over thirty years. This kind old gentleman had many friends throughout this district who will deeply regret to learn of his death and who will deeply sympathize with Mr. Dextrase in his sad bereavement.

The busiest spot in Gleichen at present is Messrs. Rennie & Ramsay's millinery room, where the ladies are admiring and buying new fall millinery. See the latest express arrivals at this busy place in Gleichen's busiest store.

A man may go through life on a bluff—if he walks.

## TALENTED VOCALISTS

English Grand Opera Singers and Symphony Orchestra

Foresters' Hall, November 20th

The Walker Lyceum Bureau, who are responsible for the members on the Star Entertainment Course, have engaged for the English Grand Opera Singers and Symphony Orchestra, Charles V. Picquet and Juanito Rush. Mr. Picquet is a tenor of reputation and long experience. Although a young man he has been connected with church choirs in the leading American cities, has studied abroad and sang the leading tenor roles with the Herald Square Opera Company and others of note. Miss Rush is a beautiful young woman, with a finished musical education. She likewise received her early training in choir work and completed her studies under the great foreign masters. She was for two seasons the prima donna soprano with the Aborn Opera Company in Washington, D. C., where she sang all of the leading roles. Both of these artists would be a credit to any organization, and Gleichen is fortunate in being able to hear them.

The Star Entertainment Course is given under the auspices of the Gleichen Opera Co., T. P. Fisher, manager.

Tickets are now on sale at A. R. Yates' drug store.

Another car of the Famous Robin Hood Flour arriving this week at Rennie & Ramsay's busy store.

Turkeys—Young turkeys for sale. John C. Buckley, Gleichen, Alta.

## Re-opening Dance A Success

The re-opening dance in the Foresters' Hall last Friday evening proved a success both socially, financially and in point of numbers in attendance. The new addition to the hall proved a credit to Court Blackfoot and to the contractor, George Wakefield. The addition being 30 feet, makes the hall 90 feet long and 50 feet wide, and as the posts in the centre that sustained the roof have been removed the hall has an entirely different appearing interior. The roof is now suspended from a network of trusses, in the same shape as cantilever bridges are constructed. The new floor also received the complimentary attention of many of the dancers.

Although there was about 200 present there was plenty of room for all, and from the time Messrs. Todd and Brown and Miss Frazer started up with their usual excellent music all appeared to go in to thoroughly enjoy themselves and continued to do so until about 3 a. m.

At midnight a luncheon was served, but for some reason unexplained the service was rather slow, although the sandwiches, etc., were excellent. The lights, too, caused some trouble, and it would have looked much better had the brothers all worn a badge that night. However, despite these little drawbacks there was a general expression of opinion from the participants that the dance was very enjoyable and they hoped the Foresters would soon arrange for another.

## Will Come Again

Col. Charles P. Watson, assistant manager of the New York Tribune, is reported to have made the following flattering statement before leaving this province:

"I have never in my life met a more wholehearted people than I have in this country. We have all heard much of the superiority of the Sunny South in this respect, but its hospitality is not to be mentioned in the same breath with that of this country. I have been struck with the prosperity on all sides, not only in one industry, but in all. The possibilities of this country have only been scratched. I like it so well that I am going to bring my wife with me next summer and spend six weeks here."

## BUCK-DENNIS NUPTIALS

Married at Winnipeg, on Wednesday, Nov. 10th, Miss Myrtle Dennis, of Hamilton, Ontario, and Mr. Belknap Buck, of the Circle Ranch, Gleichen.

Monday afternoon Mr. and Mrs. Belknap Buck arrived at Gleichen from Winnipeg, much to the surprise of many of Mr. Buck's friends, who were not quite prepared to learn that he was about to take the step. The happy couple remained over night at the Gleichen Hotel and the following day drove out to the Circle, where they will make their future home and where they received a most hearty welcome. The Call joins the many friends in wishing Mr. and Mrs. Buck every happiness.

## MADAME LETELLIER

The Famous Parisian Palmist is in the city at the Gleichen Hotel for a short time. Madame Letellier located hidden money buried by ancestors in the south of England. She can also help you. She assigns you your affinity in life, and tells you how to win her; what year you will be married in, whether your life will be fortunate—in fact, she reads your life from the cradle to the grave, and gives advice on all affairs.

Consultation strictly confidential. Call today. Gleichen Hotel, Room 11. Hours 10 a. m. to 10 p. m.

## ROAD TO CROW'S NEST

RAILWAY LINE IS SURVEYED THROUGH NORTH KOOTENAY

It is believed that the Harriman System is at the back of the undertaking, and that Road is designed to connect with Oregon Short Line—Will Meet Crow's Nest Road at Burnsville.

Frank, Alta.—The surveying crew in the employ of the Carbon Hill Coal company, running a railroad survey up the South Fork of the Old Man river to cross the main range via the North Kootenay pass, is now nearing the summit and it is expected the work will be completed before severe weather sets in. Engineer Winters in charge of the work was in Frank the first of the week. He states that as glacial progress as could be expected under rather unfavorable conditions is being made and that he expects to finish the survey to the summit at least by the end of the month.

Contrary to the supposition that has been general with regard to the building of a railroad through the North Kootenay pass, which has been that a long tunnel at the summit would be necessary in order to get a reasonable grade, Engineer Winters states that no tunnel will be necessary and that a very fair grade will be obtained. There has been much speculation indulged in as to who is behind the Carbon Hill company in this project but no move has thus far been made calculated to tip off the hand of the real projectors. Many people are of the belief, however, that it is a Harriman system undertaking, designed to connect ultimately with the Oregon Short Line.

That it is a bona fide railroad building project and not merely a preliminary designed to head some one else off is indicated by the fact that the road is being located as the work progresses, leaving only the cross sectioning to be done. It is said that contracts will be let early in the spring for the beginning of construction. The line will connect with the Crow's Nest road at Burnsville.

Used a Horsewhip on Mr. Churchill

Bristol, Eng.—A wild-eyed suffragette armed with a horse whip, attacked Winston Churchill here. Churchill and his wife had just arrived by train, when a woman suddenly darted out from the crowd and commenced to belabor the cabinet minister with a rawhide. Churchill promptly seized his assailant, and after a struggle, succeeded in wrenching the whip from her hands. The suffragette was arrested and imprisoned.

At the police station Churchill's assailant was identified as Theresa Gurnet. She was smartly gowned. The officers who made the arrest said that the suffragette broke through the police line on the station platform, and bringing down the lash of a long whip upon the minister's head, shouted: "Take that you brute." Churchill's hat broke the force of the blow, but the lash curled about his face and left a red mark. As the police seized the woman she pointed scornfully at the minister's dentured head, and with her face flushed with excitement, cried: "That's what you've gotten and you will get more of the same from British women."

Gamblers Cannot Evade This Law

Ottawa.—H. H. Miller's proposed amendments to the criminal code in respect to race track gambling will contain a number of important clauses. One clause will read: "The word 'place' includes any place, whether enclosed or not, and whether it is, or is not, a fixed place and whether there is, or is not, exclusive right of use." The object of this clause is to overcome the ruling of the courts that when a bookmaker moves about from place to place on the track, he cannot be said to have occupied a fixed place for the purpose of carrying on his business.

The Wheat Crop for Year Very Good

Washington.—There has been an increase of nearly three hundred million bushels, or fully one-sixth, according to the United States department of agriculture, in the production of wheat recently harvested in six countries of the northern hemisphere, which in 1908 produced practically two-thirds of the world's supply. These countries embrace Canada, France, Hungary, Russia, Roumania, the United States. After two years of unusually abundant yields, the world's production of wheat this year, according to reliable trade estimates, will fall to a lower point than in any year since 1892.

Will Get Ft. William Elevators

Regina.—Negotiations are on foot for the purchase of the C. P. R. system of terminal elevators at Ft. William by the Grain Growers Co. It is understood that negotiations are progressing favorably, and the deal will likely be closed before long. The control of the terminal elevators would place the Grain Growers Grain Co. in a very strong position, as the company is backed by the great majority of the farmers of the west. It is virtually a farmers' move.

All Want the Mill

Fort William.—H. W. C. Chalfant, superintendent of construction for the Ogilvie Milling company, was in the city in connection with the \$300,000 additional to the company's elevator, and he said almost every city in Manitoba, Saskatchewan and Alberta are endeavoring to secure the new mill which Ogilvie intend erecting. "The exact location has not yet been decided upon, but it will be shortly," he said.

Industrial Accidents

Ottawa.—Industrial accidents occurring to 316 individual work people in Canada during the month of September, 1909, were reported to the department of labor. Of these 1 were fatal and 225 resulted in serious injuries. In the preceding month there were 126 fatal and 264 non-fatal accidents reported, a total of 390, and in September, 1908, there were 102 fatal and 134 non-fatal accidents, a total of 236.

## HISTORIC DATA GIVEN CANADA

Original Correspondence of Governor-General Between Years 1791 to 1840

Ottawa.—A most important gift has been made to the people of Canada by the British government. This is the complete and original correspondence sent by the Governor-General to the home office from the year 1791 to 1840, the period during which Upper and Lower Canada were separate provinces.

After a cursory glance over some of the papers Dr. Doughty, Dominion archivist, in whose care they have been placed, is unable to say that they will have the effect of modifying in some cases, and of correcting in others, data which have hitherto been considered historically accurate. The correspondence deals with such interesting subjects as the division of the country into Upper and Lower Canada in 1791, the abolition of slavery in Upper Canada in 1793, the exclusion of judges from parliament in 1811, the first treaty with the Northwest Indians in 1817, the Earl of Selkirk signing it on behalf of King George III., the rebellion of 1837, the beginning of difficulties regarding United States fishermen in British waters, and ending with the union of the two provinces under the name of the Province of Canada, the year after the death of Lord Durham.

Support for Georgian Bay Canal

London.—Sir Robert Perks has received advice from Ottawa which encourages the expectation that the Canadian ministers are prepared to adopt an attitude of more practical sympathy with the Georgian Bay canal scheme, especially in view of the better outlook for Canadian finances.

Sir Robert, who is re-visiting Canada shortly, in a letter to his Lincolnshire constituents names his new Canadian business as the prime reason for his decision not to speak of reelection. He also strongly opposes the socialistic tendencies of Lloyd-George and Winston Churchill.

Sir Robert says: "I have arranged to take an active part in the construction of a great public work in Canada which will make a very considerable demand upon my time and compel me to make frequent visits to Canada, generally at the time when parliament is in session."

Want to Buy Hudson's Bay Stores

London, Eng.—It is learned on what seems good authority that Harrold's Stores, Limited, which is one of London's greatest emporiums, has offered the Hudson's Bay Company \$5,000,000 for its stores in Canada.

Mr. Burbridge, managing director of Harrold's, visited Canada last summer, going out at the same time as Lord Strathcona, and it is known that he made an exhaustive investigation of shop methods of the Hudson's Bay Co. at its various Canadian centres.

Mr. Burbridge is also honorary treasurer of the Chamberlain Tariff Commission, and is keenly interested in the question of one British trade with Canada. He is well backed up by influential British financiers, who have great faith in his judgment and experience.

How the Powers Stand on the Sea

Country—tons, 1908 tons, 1909

Great Britain..... 1,689,005 1,758,350

United States..... 685,426 682,785

Washington, D.C.—Naval officers sat up and took notice when it was officially announced by the naval intelligence officers that the fighting strength of the eight powers of the world shows that Germany has gone forward rapidly.

The table gives the naval situation on Nov. 1 and it is accepted by American naval officials as well as by naval diplomats in Washington.

Off For Pole

Chicago.—Seven years' supplies for a baker's dozen of hungry men will be purchased in Chicago to fit out the new North Pole expedition of Capt. Roald Amundsen, the Norwegian explorer, who is about to make another trip in the Fram. He will arrive in Chicago Monday, Nov. 22, from Christiana and will be the personal guest of the Norwegian consul, F. Herman Gade. He will sail in July for the frozen north.

Plans are also being made by the Chicago Geographical society to bring Sir Ernest Shackleton, the man who explored the south polar continent, to Chicago. He will lecture early in May.

Speaks Well of Conditions in Canada

London.—General French interviewed on his arrival at Liverpool from Canada, the conditions in the Dominion as compared with the mother country. Even dock laborers there, he said, earned twelve shillings a day. He emphasized the fact that those willing to work and adapt themselves to new surroundings were wanted in Canada.

Prof. G. Smith Leaves Journalism

Toronto.—The retirement of Prof. Goldwin Smith from journalism was announced in the Weekly Sun, to which he has contributed as "Bystander." "Prof. Goldwin Smith wishes us to state that old age requires him to retire from journalism. Anonymous articles are therefore no longer to be ascribed to his pen."

Boosting Western Canada

Ottawa.—The Interior Department is beginning a newspaper campaign in the United States to boost the Canadian West with country people, who may be induced to immigrate. Advertising will be done in papers having a large mail circulation.

Comet is Sighted

Ottawa.—The officials at the Dominion observatory have made their first observation of Halley's comet. The experiment was successful, and the comet was found to be in the 12th magnitude. It will not be visible to the naked eye for some weeks yet.

## RETURN TO THE FARM

PROMINENT RAILROAD MAN HAS A UNIQUE PLAN

Wm. C. Brown, President of the New York Central, Says the Farm is the Place for the Unemployed—Is Urging His Company to Establish Experimental Farms to Give Employment to the Idle.

New York.—Legislation enough for the present, argued the man who manages railroads; further control pleaded legislators; co-operation in the interests of fair dealing, proposed shippers, and others. These varied views on the great common carriers of the country were expressed at the first annual banquet of the Railway Business Association at the Waldorf Astoria. The association which is a sort of self-imposed medium of conciliation between the railways and the public had as its guests at the table more than six hundred men interested in railroads.

George Post, president of the association, was toastmaster. The keynote in his address was "Conference, Conciliation and Concession by all Concerned."

Representative W. Hepburn, of Iowa, author of the Hepburn Act, suggested that there were yet railroad matters over which the government should have control. For instance, he asked, what serious hurt could come to railroads if their capital could not be increased until approved by government authority?

Wm. C. Brown, president of the New York Central lines, declared that "In time of depression, our unemployed will be numbered by millions," and suggested the increased pursuit of agriculture as a means to forestall such conditions. He said he intended to recommend to the New York Central lines that the road operate at its own expense under the auspices of the state agricultural department, a series of experimental farms.

"This would return to the rural districts the preponderance of political power, he said, "where it can be more safely lodged than in congested centres of population, already ominously powerful in many of our states."

Americans Have Invested in Canada

Toronto.—That United States capitalists are interested in Canadian industries to the extent of at least \$200,000,000, is the statement in an article in the Monetary Times, which has completed a four months' investigation. The following is the summary of the figures:

One hundred and sixty-eight United States companies, averaging a capital of \$600,000, to \$100,000,000; mined States investments in British Columbia mills and timber, \$50,000,000; land deals in British Columbia, \$2,000,000; packing plants, \$5,000,000; United States investments in lumber and mines, prairie provinces, \$5,000,000; implement distributing houses, \$4,000,000; land deals, prairie provinces, \$10,000,000. Total \$226,800,000.

Fort Laird Wheat is Graded No. 2

Ottawa.—The trade and commerce department has received from the Commission of the R.N.W.M.P., a sample of wheat grown in 1908 at Fort Laird. Fort Laird is on the River Liard, which empties into the Mackenzie river at Fort Simpson, and is situated 20 miles north of the 60th parallel, and 20 miles east of Yukon territory. The grain inspectors at the R.N.W.M.P. have graded the grade of No. 2 northern. The present price of this grade is between 90c and 95c.

Railways of More Interest than Navy

London.—The Hon. Walter Scott says: "In the west we realize that so long as Canada is a part of the empire, and that empire must be defended, Canada should lend her aid. The westerners favor the plan outlined by the government of a Canadian navy, as opposed to direct contributions. Of about the same thing. They are interested in railways just now." Mr. Scott has been visiting his old home at Hilderton, in London township, and is on his way to Regina.

Leaving North in Fear of Indians

Vancouver.—Telegrams from Hazelton Premier McBride say that women and children are being sent in canoes down the Skeena to Prince Rupert in view of the threatening attitude of the Indians. Police reinforcements have been sent. According to reports from an official the women and children will be sent as far as possible by water and then take the trail. The Indians volunteered the assurance that the outgoing canoes will not be molested.

Only Two Strikes Under Lemieux Act

Ottawa.—The annual report of the department of labor states that during the two years which the Lemieux act has been in force up to March 31 last, 55 disputes have been referred for settlement under its terms. Of these 53 were disposed of without strikes or lockouts following. The exceptions were the dispute in 1907 at Springfield, and the dispute between the C. P. R. and machinists' carmen in 1906.

The Army of Unemployed

New York.—There are 200,000 men and women in New York who are willing to work, but who are not able to secure employment, was the statement made by the secretary of the National Committee of the Unemployed, before the state commission which is investigating the operation of the employers' liability act.

The Canadian Potato Crop

Ottawa.—The government crop report gives the total potato crop of the Dominion as 99,097,000 bushels, an increase over last year of 22,897,000 bushels. Other root crops show a large increase.

Start Work on the Waterways

Edmonton.—Construction will be started this week on the Alberta and Great Waterways to Fort McMurray, when 100 men will leave the city for a point 20 miles out to clear the right of way. Work will be carried on through the winter.

Attempt to Kill Viceroy of India

Ahmedabad.—Lord Minto, viceroy of India, and Lady Minto, had a narrow escape from being killed by a bomb. They were driving through one of the streets when, without warning, two bombs were thrown at their carriage. Neither bomb exploded, as they fell on soft sand which acted as a buffer. So far no arrests have been made.

## CHURCHILL OR NELSON

Reports on Two Routes are Submitted to the Railway Department.

Ottawa.—The most interesting feature of the annual report of the minister of railway issued for the people of the Canadian west is the remarks made by M. J. Butler, deputy minister on the Hudson Bay railway surveys.

After referring in a general way to the work done by surveying parties in 1903, under John Armstrong, the deputy minister makes the following references to Armstrong's reports:

"It appears that two routes have been found one to Fort Churchill, and the other having its terminal on the bay at Fort Nelson, on the river Nelson." He sets down the length of the Churchill route from The Pas at 465 miles, of which about 320 miles have been surveyed. And the cost at \$11-608,555. The length of Port Nelson route being 37 miles and estimated costs \$8,808,350, to which in both cases the cost of terminals has to be added.

He considers that the probable total cost of either route would be seventeen or eighteen million dollars. This estimate, however, as he explains, is based on incomplete surveys and exploratory reports.

Unit prices used in Dr. Armstrong's estimate are considered too low. He (Armstrong) observes that while Churchill harbor seems to be the best natural harbor on the west coast of the continent, the port of Port Nelson, in fact, would be required to obtain the necessary depth for a commercial port.

As for the river Churchill itself, he states that it is full of rapids and falls, and not of much use as a transport route, though offering great facilities for the development of power for the electrification of the railway if desired. Port Nelson harbor, he describes as requiring improvement by dredging a channel for a distance of about ten miles, but this would probably be an easy matter.

Fish Catch of Canada 25 Millions

Ottawa.—The total value of the fish caught in the Canadian waters during 1908 was \$25,451,085. This is the most significant statement made in the annual report of the fisheries branch of the department of marine and fisheries. The revenue in 1908 was less than that of 1907 by \$48,264, and less than 1906 by \$28,400. This was the second highest year on record, 1905 being the record year.

For that year the total revenue was from two and a quarter to four and a quarter million dollars ahead of the years 1902-4. Although the total for 1908 is less than for the two preceding years, the upward tendency has been well maintained. Six commercial fish caught in Canadian waters had a total value of over a million dollars in 1908. They were: Salmon, \$4,814,200; lobster, \$4,200,279; cod, \$3,361,409; herring, \$2,471,963; mackerel, \$1,336,810; halibut and whitefish come next in order the catch being valued at \$819,626.

Plan to Emigrate the Unemployed

London.—Lord Dunsford, writing to the Morning Post, suggests that each town and populous country in Britain should acquire large estates in Canada and the other dominions for relieving the unemployed problem on the condition that instead of spending their money on useless relief works all men should be emigrated under contract to keep to their agricultural communities for a specified time.

The Morning Post editorially emphasizes that Canada wants men and not loafers, but endorses a duly safeguarded scheme and hopes that Dunsford will see what practical steps can be taken immediately.

The Standard also endorses Lord Dunsford's proposals remarking that it is a business proposition and as Lord Dunsford says, it is a paying investment on the one hand and a means of employment for the workless on the other.

Titles For Police

Calgary.—The R. N. W. M. P. force includes among its officers three men who have been decorated for services rendered, members of the most distinguished order of St. Michael and St. George.

Only a few days ago Commissioner Perry of the R.N.W.M.P., was created C. M. G., thus making the third in the force. The other two who have the honor of having conferred on them are the late Commissioner of the R.N.W.M.P., and Inspector Jarvis, C.M.G., of the Calgary detachment.

C. N. R. Coast Fleet

Vancouver, B.C.—A story is being circulated here that Mackenzie and Mann are planning to put steamer lines on the Pacific. They will make application to Ottawa for subsidies for lines to China, Japan, Australia, and Heliopolis, now known as Cairo, and to have been purchased by the Canadian Northern as a nucleus for their fleet. They will be delivered here early in the new year, and are to be operated with Barclay Sound on the west coast as the first port of call.

Alberta Was Too Modest

London.—The Alberta & Great Waterways issue of \$7,500,000 5 p. c. first mortgage bonds has been oversubscribed and the opinion is expressed by prominent financiers that the province of Alberta has not been well advised in making an issue at so high a basis as 4-1-2 per cent. They should have done much better.

To Send Taft Over

Washington.—It is reported in diplomatic circles that the British government through Ambassador Bryce will found conditions for the possibility of having President Taft go over the boundary into Canada next year, when he undertakes his Alaskan trip next summer.

Attempt to Kill Viceroy of India

Ahmedabad.—Lord Minto, viceroy of India, and Lady Minto, had a narrow escape from being killed by a bomb. They were driving through one of the streets when, without warning, two bombs were thrown at their carriage. Neither bomb exploded, as they fell on soft sand which acted as a buffer. So far no arrests have been made.

## OPENING OF SESSION

MORE THAN USUAL INTEREST IS MANIFESTED AT CAPITAL

Brilliant Gathering at Opening of the Second Session of the Eleventh Canadian Parliament—Members are Already Discussing the Navy Proposals—New Members are Introduced.

Ottawa.—With the boom of guns from Nepean Point with the banner of England flying from every mast head of Parliament Hill, with all the usual pomp and spectacle of military escorts and guards of honor, with an unusually large concourse of notables present to witness the ceremony, His Excellency Earl Grey formally opened the second session of the eleventh parliament of Canada.

There was more than the usual interest manifested in the opening both on the part of members and on the part of citizens of the capital. It was the last occasion on which his excellency would officiate, his term of office expiring next year, and the session will necessarily mark a new era in respect to Canada's relation to the empire and to the stage of the world's politics.

Members, who are gathered in larger numbers than usual for the opening, are already discussing the government's programme of naval legislation with more show of interest in coming events than has marked any previous opening of recent years.

All the ministers of the crown were present with the exception of the postmaster-general, Hon. Rudolph Lemieux, who will not be back in the capital from Europe until the end of the month. In addition to the attendance in the senate chamber of the usual galaxy of the country's elite there were the three lieutenant-governors, namely, His Hon. Lieut. Gibson, of Ontario; Sir Alphonse Pelletier, lieutenant-governor of Quebec, and Hon. Alexander Henderson, governor of Yukon.

The new Chinese consul at Ottawa and the German consul from Montreal made their first appearance with the consular corps present. A feature of the opening proceedings in the Commons was the introduction of a new minister of the crown, Hon. Mackenzie King, by Sir Wilfrid Laurier and Hon. Mr. Patterson. Hon. Mr. King's mother, who saw many years ago her father, William Lyon Mackenzie introduced to the old parliament of Upper and Lower Canada, looked down from the gallery this afternoon on the introduction of her son as the young minister in the history of Canada.

His excellency, who was escorted from Rideau Hall by a company of Princess Louise Dragoon guards and was received on Parliament Hill by a guard of honor from the Governor-General's Body guards, entered the senate chamber with his suite and members of the headquarters military staff in full panoply of gold lace and scarlet uniforms. Sir Richard Cartwright, as leader of the senate, and Hon. Speaker Kerr, received him. The Black Rod was sent to summon the loyal commoners for the lower house. The usual summons, three knocks, was given on the door of the Commons chamber. The Black Rod made the usual elaborate three bows and announced the summons from his excellency. The members headed by Speaker Macell, then trooped over to the chamber, where his excellency, flanked by Sir Wilfrid Laurier and Sir Richard Cartwright in their Windsor uniforms, stood to the assembled representatives of the nation the speech from the throne.

Shipping Fruit West.

Toronto.—At the annual meeting of the Ontario Fruit Growers' Association Robert Thompson of the St. Catharines Cold Storage Association, told how strawberries had been served on tables in Manitoba, and even in Saskatchewan, with all the relish of Toronto menus. In all about 600 carloads had gone west from the peninsula. Rates to Winnipeg were 8c cents per cwt. with proportionate rates to Portage and Brandon. Rates further west though were prohibitive to Ontario producers, as against the rates from the western states.

Hazelton Alarmed About the Indians

Victoria.—A despatch from Hazelton asking that more police be sent there, has been received by Premier McBride. It says: "In view of the seriousness of the Indian situation, the minority of whites and insufficient police protection, we, the undersigned, business and family men of Hazelton, hereby again petition and demand that you increase at once the present regular police force by at least twenty men."

The Moral Life in Yukon

Ottawa.—Governor Henderson of the Yukon, who arrived here says that quartz mining is going to be a success in that country. "Should anyone say that the Yukon has more immorality than other places," said the governor, "you can say that this is not true. The Yukon is as firm as the basis of moral life is as firm as in any district in the world. The statements that have been published broadcast are without foundation."

Terrible Storm in Jamaica

Kingston, Jamaica.—From the fragmentary reports arriving here from the countryside, the damage resulting from the floods and storms which raged through the country has been enormous. The greater portion of the railway has been badly damaged, while property in and around Kingston has been injured to the extent of \$500,000. The record rain fall from Nov. 6 to 10 was 48 inches. All the telegraph wires are down.

New Road Into Winnipeg to be Started

Winnipeg.—A despatch from Grand Forks, N. D., says that A. J. Earling, president of the Chicago, Milwaukee & St. Paul, announced definitely that they would extend their line from Fargo to Winnipeg, beginning early next spring.

## A CANADIAN ACTOR.

Acton Bond Has Achieved Distinction in His Art in London.

Occasionally those who read the English newspapers see the name of Acton Bond mentioned in connection with various official events connected with the stage, but few are aware that he is by birth a Canadian, born in the city of Toronto half a century ago. He came of an English family of distinction, then resident here, and which afterwards returned to the motherland. He was there educated by private tuition and drifted up on the stage as a result of his connection with the Whittington and other amateur theatrical societies then existing in London.

At that time there was an actor in England who, though of secondary importance in an artistic sense, was extremely popular throughout Great Britain and had a wide classic repertoire. Of his company Acton Bond became a member and gained a wide experience in repertoire throughout the provinces. At the time of the partnership between Sir John Hare and W. H. Kendal he joined their forces, and made his first London appearance as a professional in a small part. Later, he was in the company of Sir Henry Irving at the Lyceum and had important roles in "King Henry VII.," "Bocket," "King Lear," "Richelleu," and "Louis XI." When Beerholm Tree produced "The Tempest" some years ago Bond played Prospero to the latter's Caliban for fifty nights. He also played a prominent role in "The Only Way," the production in which Martin Harvey sprung into fame by his beautiful performance of Sydney Carton. It is said of him that he has played, in almost every theatre in the vast city of London. Two years ago he essayed "Macbeth" with some measure of success. It is, however, his activities outside of the realm of the stage which have brought him in close touch with the public. He is honorary general director of the Popular Dramatic Readings British Empire Shakespeare Society, which has a membership of more than ten thousand persons.

He is a noted specialist on the speaking voice and in the social life of the theatrical profession he is very prominent. He was secretary and organizer of the Ellen Terry jubilee benefit entertainment in 1908, and was one of the charter members of the Irving memorial committee. He has also dabbled in playwriting. He is joint author of a classic skit, "Pilate and Ovid's Daughter," and also helped to dramatize J. Stover Clouston's "The Great Travesty." "Luna at Large." So far as one knows he has never visited his native land in a professional capacity, but no doubt Canadian will see him some day.

Canadian With Shackleton.

It is not every day that Canada can welcome back a home-grown polar explorer. Dr. Michell, the surgeon of Lieut. Shackleton's South Pole expedition, now in this country, is a graduate of the University of Toronto, of the year 1902.

After three years' practice in Muskoka, he went to the old country for post-graduate work. After a year in London, he shipped as surgeon on a liner running to West African ports. While there he met a man connected with the Antarctic expedition and applied for the position of surgeon.

While Shackleton was away from the winter quarters at Cape Royd on his overland attempt on the pole, and Prof. Davis was off discovering the magnetic pole, Dr. Michell was with the good ship "Nimrod," engaged in exploring and charting the west coast of Victoria Land.

"In several bad places through pressure of ice," he said. "Three times I thought we were gone. It is a curious thing this ice pressure. It comes so suddenly. You may be quite still, when you hear a sort of rumbling underneath, and then you feel that the ship is like a man having his ribs crushed in. However, our boat was an old sealer and it was no trouble to her."

"There is much more rock down there than most people think. The glistening mountain peaks all along the coast of Victoria Land are a beautiful sight."

"The greatest difficulty is from crevasses. Even on our little trips out from the ship, we had to be careful. You find an elevator when you find yourself going. Our first officer had himself lowered into one on a rope, but I didn't fancy that sort of thing."

South Pole exploration, he explained, was quite different from the north. The former was mountaineering, the latter traveling on a sea ice. He thought that the great southern continent covered the whole south polar region.

Beginning to Realize.

Within a third of a century there will virtually have been built in the Dominion four transcontinental railways. This in itself would denote a degree of progress phenomenal in a country's history if it were not that it has been only within the last few years the opportunities and resources of the New World have been grasped by the outside world and confidence inspired by the returns of the harvest fields and mines. The outside world is beginning to realize in its fullness the possibilities of Western Canada.

The result is the outpouring of money in Western Canadian enterprises, particularly in that branch of those enterprises requiring the greatest confidence and the greatest expenditure.—Winnipeg Telegram.

quent insertion. Changes should reach this office not later than noon each Monday.

W. PARK EVANS,

Publisher and Proprietor.

Gleichen, Alberta, November 18, 1909.

An effort is being made to thoroughly reorganize the Gleichen and  
District Board of Trade for the coming year and make it more useful for  
the town and district. In the past the board has been instrumental in  
bringing many things to the town and getting improvements throughout  
the district. Then let all write and make it more useful and the repre-  
sentative body it should be.

A man, who recently spent some days in the Hutton district,  
where the big prairie fire burned, was in town the other day and said  
that many of the housekeepers there would suffer the coming winter un-  
less they were assisted in some measure. He said many had lost heavily  
and would have no fuel for their homes and cattle this winter now in the  
spring to carry on their work. His opinion was that the government  
should assist these unfortunate housekeepers, who are suffering for re-  
asons they could not possibly control.

A young man with a practical knowledge in his head, skill in his  
hands and health in his body is his only letter of reference. Mix him  
up with sixty millions of others, and you will find him again, as he will  
be a habit of being on top. These his health, his skill, his hands, and  
he will be at the head of something. He does not go spinning over  
the land, blaming fortune and saying he has no chance, but goes out  
and does something, and goes out and does it again and better. Men  
that can do things either with head or hands, are the men that are  
wanted, and the demand is as great here and now as it has been at any  
time since the beginning.

The incorporation of Gleichen as a town is nearing completion,  
although some have apparently tried to hinder the proceedings. Much  
talk has been indulged in regarding the seeming slowness of the pro-  
cedure. Yet it is mainly because those who did the talking did not  
let the facts of the case be known. The council aimed to have the in-  
corporation completed by the end of the year in order to save the costs of  
a second election. Many faults have been found with the proceedings  
necessary to incorporation, and it may be that one or two typographical  
or clerical errors have been made, but none of a serious nature have been  
made, at least so The Call is informed from quarters that should leave  
no room for dispute.

The optimist, while he sees much of the evil, sees also much of  
the good. He sees more of the beauty, hears more of the music; his  
mental vision is keener, his spiritual insight deeper. His whole view of  
"life" is of promise. When the pessimist, however, looks at the same  
condition, he stands squarely in his path, and by artificial and exaggerated  
declares his firm belief in the ultimate good. He has many experiences  
and sometimes he fails; but he rises stronger in resolution for having  
overcome a weakness. There is in him something that never yields.  
He looks upon evil as something to be overcome. He makes effort,  
in proportion to this does he elevate himself to a higher plane in life. He  
has a mission in the world, and proceeds to do his work. This is usually  
done without demonstration. His force is like the sublime force of the  
universe—silent, but always acting. Like the pessimist, his life and  
thoughts are contagious; unlike the pessimist, he is always welcome.  
If the two come face to face, he will never yield to the latter's influence.  
He knows that eternal truth and goodness are working through him,  
and he believes in their ultimate triumph.

The enormous increase in the immigration of Americans in Can-  
ada is best told in figures which have been compiled by immigration  
authorities. For the past three months the figures have been compared  
and show the total number of immigrants coming through each port of  
entry in Western Canada.

These figures show a gradual increase right along and this in-  
crease is likely to be kept up through the present month. It will be  
noticed that in the month of August this year the increase over the cor-  
responding month last year is 788. September shows an increase of  
1,413, and October an increase of 2,101. In the three months alone  
the total number is 42,813. The complete figures show that Americans  
are coming from all parts of the United States. Hitherto the immi-  
grants from the other side of the line came through regular ports of  
entry, but on account of the tremendous immigration this year the im-  
migration authorities had to open more doors to the American immi-  
grants, and if the great rush continues, which is readily anticipated, still  
more ports of entry will be established. The following are the official  
figures of immigrants from United States Western Canada in 1908:  
August, 3,071; September, 3,239; October, 3,129; November month for  
1909: 3,876, 4,692, 5,220.

Patriotism manifests in many and various ways. Some people  
are willing to die for their country and a few willing to live for their  
country—which is much harder. Some are eager to show their patriot-  
ism by holding a job at a fair salary and some are willing to vote the  
party ticket straight—just because it is the party ticket. Patriotism,  
says Walter Williams, is often another name for pride.

The small ways in which patriotism may be shown seldom attract  
attention. A soldier attacks the enemy of his country and we call  
the soldier a patriot. But it is patriotism also to cut down the weeds on  
your back lot. The soldier gives his life in a day, but the scientist who  
gives his life in a generation is also patriotic.

Two kinds of citizens are in every town, patriots and traitors.  
There is no middle ground for neutrality. Every man is in one or the  
other camp. The patriot does his full duty to the community, votes,  
expresses his opinion, takes part in meetings for civic good, bears cheer-  
fully his portion of the community's work. The traitor lets the other  
follow do the work and reap the benefit for the other fellow's patriotism.  
Traitors consist of trying to run against the republic—say the founda-  
tion law—our guiding aid and comfort to her enemies. He gives aid and  
comfort to the public enemies who do not assist in making better the  
community in which he dwells. He is himself a public enemy.

The climate, though freezing, is beautiful.

Would you think we were anticipating things if we mentioned the  
fact that our Christmast shopping was in order.

XMAS CARDS FROM 5c to 50c

**...A. R. YATES...**

GLEICHEN, ALTA.

## TOWN AND DISTRICT

Saturday, Nov. 20th

Real Cognac was, for skating goods at eastern prices.

Not yet ready for the market on the 20th.

The opening hour of our public school closed Monday at 9:30 a.m.

Ganong's & Webb's chocolates "The best in the land" at Yates' drug store.

Yes, it was cold Sunday and Monday, but Old Sheldahl wants things up during the day.

The young folks of the town have been enjoying plenty of good amusement skating on the Skating rink, since the town's week.

The Farm Crops Magazine has opened a branch office in Calgary which goes to show that Winnipeg people are finding that Alberta is really a farming country.

Xmas cards and post cards now on display at Yates' drug store. Cards from 5c to 50c, and a large assortment to choose from.

It costs money to print a paper like The Call, and we hope that all who will pay up as quickly as is at all convenient for the small amounts will help us pay off some big ones.

The ferry across the Bow river below the South Camp was halted out for the season last week, owing to the low water, but a few more steady nights will complete the ice bridge for the winter. In the meantime the farmers have to make the long trip by the big bridge.

The membership to the Gleichen and District Board of Trade has been made \$1 for the balance of the year. By this means it is hoped to get everyone interested in this district movement and to start the year off in good business style. It is your duty to assist this most useful organization.

With the next ten days A. J. Yates will display the largest and most magnificent stock of Xmas goods ever shown in Gleichen. Mr. Yates has had his store remodelled and enlarged so as to display his stock to a better advantage. It will pay you to inspect his stock before deciding to buy elsewhere.

The question of who will be Gleichen's first mayor is being very thoughtfully discussed these days. That is right. Make the fellow who gets the honor believe he earned it. Who has won the honor then help him to sustain it and help him make this town the most attractive in the west.

Mrs. John Finnigan was in from her home on Red Deer river several days last week, visiting her numerous Gleichen friends. Mrs. Finnigan says she still looks forward to the time when she will come back to live in Gleichen again and was greatly surprised to see the improvements in our growth of the town since her last visit in March last.

John McLean, of Banquo, spent a day last week transacting business in town and reviewing former acquaintances. He reported that the sheep ranching business was a good success this year, and had many good things to say about Banquo. He states that people down there not only do a big business but also go in for enjoying themselves.

Recently Thos. McLean entertained the townspeople at a masquerade ball, which proved a most enjoyable and pleasant affair. Peter McLean gave two prizes of \$5 and \$25 for the best costumes worn by the ladies, and Miss Fay Newman was awarded the first prize and Miss Maude Leazer the second. Other social events are to take place in Banquo in the near future and The Call hopes to have good reports of them all from now on.

Barbara Blair, being unmarried herself, writes a great deal about "Managing Husbands." Says Miss Blair "A wife should strive to bring out the best that is in her husband, even if she has to go through his pockets to do it." We are personally acquainted with several husbands, who, if their wives attempted any of the sort, would get up, light the gas, and help them look for it.

A prospector from Portland was recently robbed in Victoria of \$12. No one knows where he got the money—'tweenwood folks.

Franklin is a word the very sight of which in print makes the heart warm.

A. R. Yates has received a fresh supply of Ganong's and Webb's chocolates. These two lines are the highest grade made in Canada. Persons desiring quality should buy these goods.

31-4 Gleichen P. O., Alberta,  
16th October, 1909.

## NOTICE

This is to give notice that the partnership heretofore existing between the undersigned and C. Come was dissolved by mutual consent on September 30th, 1909.

ARTHUR L. SMITH,  
Gleichen, Alta., Oct. 22nd, 1909.

W. BURR, Proprietor.

Percherons for Sale

R. F. Field of the Les-Metford stables, Calgary, attended the large horse sale in Miles City, Montana, where he purchased seven beautiful pure bred Percheron mares with foal, bred by W. T. Elwood of DeKalb, Illinois. He is now putting them on the market for sale or will trade for range horses. Illinois is the great state for Percheron horses and these mares are all black, young and sound and broken to harness. For full information write R. F. Field, 122 1/2 Ave. East, Calgary.

Young stock always for sale.

A choice lot of Registered Mares and Fillies to select from.
